

# Singingsongs Sunday Eje Onah

## Software Developer

09037228349 | ejesunday2@gmail.com | <https://singingsongsporfolio.web.app>  
Port Harcourt, Nigeria.

## PROFESSIONAL SUMMARY

---

I am an Innovative and results-driven Software Developer with a proven track record of transforming concepts into cutting-edge, user-centric applications. Proficient in full-stack development, with expertise in backend technologies, and frontend frameworks, and a passion for delivering high-quality, scalable solutions. Adept at collaborating with cross-functional teams to drive project success. Known for combining technical proficiency with a creative mindset to solve complex problems efficiently and committed to staying abreast of industry trends and emerging technologies to ensure the delivery of forward-thinking solutions. I am seeking to contribute my skills and passion for software development to a dynamic team focused on excellence and innovation.

## TECHNOLOGY STACK

---

Front End	CSS3, Bootstrap, HTML5, JavaScript, JQuery, Vue.js, React.js, Svelte.
Back End	JavaScript, Node.js, Express, Sails.js, Microservices, APIs, GraphQL, NestJs.
Data Stores	MySQL, MongoDB, Redis, SQL.
Web Servers	Apache Tomcat, Apache HTTP Server, Nginx, Google Web Server,
Operating Systems	Linux Red Hat, Ubuntu, Chromium OS, Mac OC, Windows 10, Windows Server
Quality Assurance	Cypress, JMeter, PMD (Programming Mistake Detector), Jira, Trello, GitLab CI/CD, Postman, Git
Procurement	SpendHQ

## EXPERIENCE

---

Frontend Developer | Eascore Ltd | Ogoja, Nigeria

2019 - 2020

*Eascore is one of the top 10 start-ups designing and building inventory management systems, especially for Pharmacies and medical fields domiciled in Nigeria Ogoja. It leverages conversational interfaces and artificial intelligence to bring efficiency and scale throughout the sales funnel.*

- We Enhanced the overall performance of web applications by implementing progressive web app features, such as offline capabilities and push notifications.
- We Utilized various front-end frameworks such as React, or Vue.js for efficient application development and seamless integration of UI components.  
We Design, build, and launch easyPharmacy, an inventory management system for pharmacies, which focuses greatly on solving the specific issues faced by pharmacies across Africa
- We Provided tailor-made services peculiar to her customers in medicine and related fields.

Frontend Engineer | Jiffye Integrated Services | Port Harcourt, Nigeria

2021 – 2023

*Jiffye Integrated Services is an ERP (Enterprise Resource Planning) application service provider, situated in Port Harcourt Nigeria, with a focus on providing businesses and enterprises products tailored to solve their specific problems in human resource management, accounting, email, collaboration, file/document management and inventory management.*

- We Integrated third-party APIs for enhanced functionality and seamless data exchange between systems.
- Conducted thorough code reviews ensuring high-quality code standards and adherence to best practices.
- Utilized modern JavaScript frameworks such as VueJs, React, and Svelte for developing scalable and maintainable web applications.
- Collaborated with cross-functional teams to design, develop, and launch new features for web applications.
- I mentored junior developers, providing guidance on best practices in front-end development.
- Delivered high-quality documentation detailing component usage, workflow processes, and troubleshooting procedures.
- We Designed, built, and launched Cloud 247, Jiffye inventory management, and Daewoo Human Resource management
- Cloud Office is an ERP software for collaboration, file management, user management, etc.

Full stack developer | Freelancer | Global

2019 – 2024

*As a result-oriented Developer, I have freelanced alongside my major work and have helped businesses set up software systems for automation and or control systems that have aided them in their day-to-day business.*

- Collaborated with multi-disciplinary teams to deliver high-quality products on time and within budget constraints.
- Facilitated communication between technical teams and non-technical stakeholders to ensure alignment on project requirements and goals.
- Established documentation standards for internal knowledge sharing among developers which facilitated smoother onboarding processes for new team members.

- Utilized cloud-based platforms such as AWS or Azure for deploying scalable infrastructure components in a cost-effective manner.
- Implemented continuous integration and deployment pipelines to automate code testing, validation, and deployment processes.
- Improved application security by regularly conducting vulnerability assessments and employing best practices in secure coding techniques.
- Designed robust RESTful APIs for seamless integration between front-end applications and back-end services.
- Refactored legacy code bases to improve maintainability, readability, and overall system performance over time.
- Managed version control systems like Git for tracking code changes, enabling streamlined collaboration among team members.

Quality Assurance Specialist | Eascore Ltd | Ogoja, Nigeria

2024 – 2024

*For excellence and high standards sake, I have taken a position to ensure the quality of products shipped to the market is beyond the minimum required standard the market needs, to foster highly intuitive user-centric products.*

- I collaborated with multi-disciplinary teams to deliver high-quality products on time and within budget constraints.
- I facilitated communication between technical teams and non-technical stakeholders to ensure alignment on project requirements and goals.
- I established documentation standards for internal knowledge sharing among developers which facilitated smoother onboarding processes for new team members.
- Implemented continuous integration and deployment pipelines to automate code testing, validation, and deployment processes.
- Improved application security by regularly conducting vulnerability assessments and employing best practices in secure coding techniques.
- Refactored legacy code bases to improve maintainability, readability, and overall system performance over time.
- Managed version control systems like Git for tracking code changes, enabling streamlined collaboration among team members.

Procurement Officer | Eracare Globar Resources | Umuahia, Nigeria

2024 – 2024

*For the love of cost-effectiveness while adhering to industry regulations and standards, strategic problem-solving, building healthy supplier relationships., and very strong negotiating power while purchasing the best resources for my company.*

- I collaborated cross-functionally to identify opportunities for improving efficiency in purchasing procedures.
- I sourced high-quality products by establishing stringent selection criteria for potential suppliers based on quality, price, and service reputation.

- I contributed to company profitability by identifying innovative ways to cut costs without compromising essential business functions or stakeholder satisfaction levels.
- I optimized procurement processes by implementing streamlined strategies and efficient communication methods.
- Managed procurement projects from initiation to completion, ensuring timely delivery of goods and services.
- Developed strong partnerships with vendors to secure favorable pricing, payment terms, and delivery schedules.
- Achieved cost savings by conducting thorough market research before initiating the purchasing process.
- Reduced costs with meticulous supplier negotiation and strict adherence to budget constraints.
- Monitored market trends closely to identify potential shifts in pricing or availability that could affect procurement decisions.
- Proven ability to secure high-quality goods and services at competitive prices while ensuring timely delivery and adherence to company policies

## OTHER EXPERIENCES

---

Intern (Google Digital Skills)   Google   Nigeria	2016 - 2016
Intern   University of Calabar, Calabar ICT Dept.   Nigeria	2019 - 2021

## EDUCATION

---

B.Eng  Michael Okpara University of Agriculture Umudike (Mouau)   Umuahia, Nigeria	2016 – 2021
• <i>2nd Class Honor in Computer Engineering</i>	
WASSCE   Eracare International School   Ogoja, Nigeria	2008 – 2014
• <i>West African Examinations Council</i>	
FSL   Government Primary Schooll   Ogoja, Nigeria	2000 – 2008
• <i>First School Leaving certificate</i>	

## CERTIFICATION

---

Intern (Google Digital Skills)   Google   Nigeria	2016 - 2016
---	-------------

## ACCOMPLISHMENTS

---

- I provided extensive documentation on apps to clients outlining all aspects of the implemented updates and changes, resulting in a 50% reduction in client support calls.
- Mentored 5 new employees to bring them up to speed on projects, resulting in quicker overall completion milestones.
- A key contributor to the design and implementation of new features (Point of sales) for the Jiffye inventory management system.
- Due to my discretion the company saw a rise in its profits through my innovative ways of cost-cutting without compromise.
- I was able to secure high-quality products due to my detail-oriented and stringent selection parameters such as quality and price
- I employ best practices during and after product development thereby improving the overall application security and reducing vulnerability

## ADDITIONAL ACTIVITIES

---

Genesys tech Regular | Genesys technology | Enugu, Nigeria  
South-South Media Week Regular Conference

2017 – 2019  
2023 – 2023

## INTEREST

---

- Artificial Intelligence.
- Blockchain
- History
- General Research
- Football
- Swimming
