Port Harcourt, Nigeria.

PROFESSIONAL SUMMARY

I am an Innovative and results-driven Software Developer with a proven track record of transforming concepts into cutting-edge, user-centric applications. Proficient in full-stack development, with expertise in backend technologies, frontend frameworks, and a passion for delivering high-quality, scalable solutions. Adept at collaborating with cross-functional teams to drive project success. Known for combining technical proficiency with a creative mindset to solve complex problems efficiently. Committed to staying abreast of industry trends and emerging technologies to ensure the delivery of forward-thinking solutions. Seeking to contribute my skills and passion for software development to a dynamic team focused on excellence and innovation.

TECH STACK

Front End	CSS3, Bootstrap, HTML5, JavaScript, JQuery, Vue.js, React.js, Svelte.

Data Stores	MySQL, MongoDB, Redis, SQL.
Web Servers	Apache Tomcat, Apache HTTP Server, Nginx, Google Web Server,
Operating Systems	Linux Red Hat, Ubuntu, Chromium OS, Mac OC, Windows 10, Windows Server

EXPERIENCE

Frontend Developer | Easecore Ltd | Ogoja, Nigeria   2019 - 2019

Easecore is one of the top 10 start-ups designing and building inventory management systems, especially for Pharmacies and medical fields domiciled in Nigeria Ogoja. It leverages conversational interfaces and artificial intelligence to bring efficiency and scale throughout the sales funnel.

- We Design, build, and launch easyPharmacy, an inventory management system for pharmacies, which focuses greatly on solving the particular issues faced by pharmacies across Africa. By providing tailor-made services peculiar to her customers.
- We launched Pentecost; a language translator application, that helps small, medium, and large meetings and congregations of persons of mixed race and tribe by translating to any language of the person's individual choice. This has been used by mega-churches across Nigeria for example, Synagogue Church Of All nations (SCOAN) .
- Technologies:_ Frontend(HTML, CSS, Bootstrap, Javascript, react Native, Vue), Backend(PHP, laravel, NodeJs, Express.js, Microservices), Servers(SQL, Microservices, Apache HTTP Server, Nginx)

Frontend Engineer | Jiffye Integrated Services | Port Harcourt, Nigeria   2021 – 2023

JIffye Integrated Services is an ERP (Enterprise Resource Planning) application service provider, situated in Port Harcourt Nigeria, with a focus on providing businesses and enterprises products tailored to solve their specific problems in human resource management, accounting, email, collaboration, file/document management and inventory management.

- We Designed, built, and launched Cloud 247, Jiffye inventory management, and Daewoo Human Resource management. Cloud Office is an ERP software for collaboration, file management, user management, etc.
- As the project team lead, we built Jiffy Accounting software, an Accounting product for businesses that helps manage their day-to-day account workflows.
- Technologies: Frontend(HTML, CSS, Bootstrap, Javascript, react Native, Vue), Backend(PHP, laravel, NodeJs, Express.js, Microservices), Servers(SQL, Microservices, Apache HTTP Server, Nginx)

Full stack developer | Freelancer | Global   2019 – 2023

As a result-oriented Developer, I have freelanced alongside my major work and have helped businesses set up software systems for automation and or control systems that have aided them in their day-to-day business. And this has not been at the expense of any of my major work, but rather for the love of proferring solutions whenever my services are called upon.

- I have built a music streaming site, a food ordering delivery site, portfolio websites, and amongst others

- Technologies : Frontend(HTML, CSS, Bootstrap, Javascript, react Native, Vue, flutter), Backend(NodeJs, Express.js, Microservices, sailsJs), Servers(SQL, Microservices, Apache HTTP Server, Nginx)
